

7th EDITION
EXHIBITION AND CONFERENCE

17TH | 18TH | APRIL 2026

Hall No. 02

BANGALORE INTERNATIONAL EXHIBITION CENTRE (BIEC)

ONE PLATFORM, MANY USES
DRONE EXPO TRANSFORMING SECTORS WITH UAV INTELLIGENCE

ORGANISED BY

WELCOME TO DRONE EXPO & CONFERENCE

Join us at the premier event of the year that continues to redefine the future of drone technology. This year's Drone Expo & Conference will showcase cutting-edge advancements from across diverse sectors, including Unmanned Ground Systems, Robotics, STEM, Augmented Reality (AR), Virtual Reality (VR), Aerospace, and Geo-Spatial technologies.

KEY FEATURES

- **Business Matching & Investment** : Meet potential clients, investors, and partners through exclusive B2B & B2G programs for business growth.
- **Collaboration & Networking** : Connect with global leaders, policymakers, and innovators to build strategic partnerships.
- **Drone Expo App** : Navigate the event effortlessly with our dedicated Drone Expo app, featuring interactive maps, schedules, exhibitor details, and more.

SPECIALIZED ZONES

These zones provide exhibitors with unparalleled opportunities to showcase their talents, innovations, and ideas. Here's a preview of what to expect:

Start-up Zone : The Start-up Zone is designed for emerging companies in the drone and related sectors. It offers a fantastic platform for networking, connecting with market leaders, and expanding across various domains. Start-ups can leverage advanced technology, gain insights from market trends, and establish a strong presence in the industry. Additionally, it serves as a valuable platform for start-ups seeking investment for their ventures.

Education Zone : The Education Zone is a dynamic space designed to support organizations specializing in Remote Pilot Training and courses related to drone technology. This zone offers a unique opportunity for educational institutions, training centers, and drone technology experts to showcase their programs, connect with potential students, and demonstrate the value of their offerings.

Student Zone : The Student Zone offers an exceptional opportunity for students with great ideas or those eager to learn more about the drone industry. This zone provides a formal platform for students to gain knowledge, present their concepts, and connect with industry professionals.

Innovation Zone : The Innovation Zone is a hub for groundbreaking concepts and advancements in the drone sector. It offers a stage for exhibitors and individual entities to showcase or launch their innovative and competitive ideas.

GLIMPSE OF DRONE CONFERENCE 2025

THE PARTICIPATING COMPANIES IN DRONE EXPO & CONFERENCE 2026

Drone Expo & Conference 2026 welcomes a diverse range of participants, reflecting the broad impact and applications of drone technology. We invite the following to join us as exhibitors:

- **Unmanned Aerial Vehicles (UAVs) Manufacturers:** Companies specializing in the design, development, and production of commercial, industrial, and recreational drones.
- **Unmanned Ground Systems (UGS) Providers:** Innovators in ground-based robotic systems that complement and enhance drone technologies.
- **Robotics Companies:** Leaders in robotics technology that integrate with drones for applications in automation, inspection, and operational efficiency.
- **STEM Organizations:** Educational institutions and organizations promoting STEM education and research related to drone technology and robotics.
- **Augmented and Virtual Reality (AR/VR) Firms:** Companies developing AR and VR solutions that enhance drone applications for training, simulation, and immersive experiences.
- **Aerospace and Geo-Spatial Companies:** Industry leaders offering advanced technologies and services in aerospace engineering and geo-spatial mapping, crucial for integrating drones into various applications.
- **Tech Start-Ups:** Emerging companies providing innovative solutions and new perspectives in the drone sector, including software developers, hardware designers, and service providers.
- **Educational and Training Institutions:** Organizations specializing in remote pilot training and drone technology courses, showcasing their programs and engaging with potential students.
- **Innovators and Inventors:** Individuals and teams presenting breakthrough technologies and revolutionary applications in the drone industry.
- **Government and Regulatory Bodies:** Representatives involved in setting standards, policies, and regulations for the drone industry.
- **Industry Partners and Associations:** Key industry players and associations supporting the growth and development of drone technology through collaboration and advocacy.

THE FOOTFALL FOR THE DRONE EXPO & CONFERENCE 2026

The Drone Expo & Conference 2026 is a must-attend event for a wide range of professionals and enthusiasts across various industries. Here's who should consider attending:

- **Industry Professionals :** Those working in sectors such as aerospace, defense, agriculture, construction, film making, environmental monitoring, and more, who seek to explore the latest advancements and applications of drone technology.
- **Tech Innovators and Entrepreneurs :** Individuals and companies at the forefront of technology and innovation who want to discover new trends, network with industry leaders, and explore opportunities for collaboration.
- **Government and Regulatory Representatives :** Officials involved in creating policies, regulations, and standards for the drone industry, who need to stay updated on industry developments and regulatory trends.
- **Educational Institutions and Trainers :** Representatives from schools, universities, and training centers focusing on drone technology and robotics, interested in showcasing their programs, engaging with students, and exploring educational advancements.
- **Investors and Venture Capitalists :** Investors looking for the next big opportunity in drone technology and related fields, who want to meet start-ups and established companies seeking investment.
- **Students and Researchers :** Individuals pursuing studies or research in drone technology, robotics, or related fields, who are eager to learn from experts and gain insights into industry trends and innovations.
- **Media and Press :** Journalists, bloggers, and media professionals covering technology, innovation, and industry trends who want to stay informed about the latest developments in the drone sector.
- **End Users and Enthusiasts :** Hobbyists, drone operators, and tech enthusiasts who want to explore new products, gain hands-on experience, and connect with others who share their passion for unmanned systems.
- **Business Development and Procurement Managers :** Professionals responsible for sourcing new technologies, products, and solutions for their organizations, who are interested in finding cutting-edge drone technologies and solutions.

WHY BENGALURU

Bengaluru is an ideal destination for a drone exhibition as it is India's leading hub for aerospace, defense, and technology innovation. The city hosts major R&D centers, startups, and institutions working in unmanned systems and AI, providing access to key industry stakeholders and decision-makers. Its strong ecosystem, skilled workforce, and government support for emerging technologies make Bengaluru the perfect platform to showcase and advance drone innovations.

ABOUT VENUE - BANGALORE INTERNATIONAL EXHIBITION CENTRE

A premier venue in Bengaluru for large-scale exhibitions, conferences, and corporate events. Located on Tumkur Road, 40 km from Kempegowda International Airport, BIEC offers excellent connectivity via NICE Road and the upcoming metro, surrounded by industrial zones, institutions, and residential hubs.

ABOUT ORGANIZER

The goal of Services International (SI) is to provide the most practical business platform, which is an exhibition and conference. A wide variety of top trade shows are held by Services International for a variety of industries, including printing, fire, safety, disaster response and management, drone, transport security, security, organic & natural food, wellness, herbal, machine & tools, hardware, designer clothing, jewelry. Strength of SI lies in understanding industry's need to serve it properly and multidimensional activities to make it the most viable business platform. With professional approach and expert manpower, its exhibitions are recognized as a safe bet by the industry professionals. Over 85 exhibitions have been planned by Services International.

SI adheres to the notion of turning exhibitions into the most practical and economical form of business activity, with the ideal fusion of top producers and potential industry customers from all over the world. For the purpose of achieving both immediate and long-term marketing and organizational objectives, SI works to make exhibitions a full package. Every year, SI gains greater knowledge in adapting to shifting business dynamics and uses it to create events of the highest caliber.
